TO EXTEND THE CITY LIMITS

Bill Providing for This Introduced in the Senate Yesterday.

Mr. McMillan Wishes to Prevent the Spread of Contagious Diseases in the District.

Mr. Kyle reported to the Senate yesterday without amendment the bill to establish the National University, which was introduced February 2. The incorporators are Arthur McArthur, Richard H. Aivey, Charles C. Cole, William W. Webb, Eugene Carusi, H. O. Claughton, Thomas Wilson, Matthew G. Emery, John Goode, Charles Lyman, John T. Winter, Howard H. Barker, and William C. Whittemore. The power is given to confer diplomas and to do every-thing eise usuat in a college corporation. Mr. Gibson introduced a bill, S. 3075, to incorporate the Washington, Barnt Mills and Sandy Spring Railway Company, with George W. Cissell. Charles Jacobsen, Edgar P. Berry, John H. Gheen, George W. Harvey, and James S. McIlbenny, of this city, and A. M. Stabler, John Miller, J. E. Ray, Albert Gleason, R. G. Israel, N. W. Williams, C. O. B. Bryant, Francis Thomas, and R. B. Miller, of Maryland, as incorporators. The bill has been changed from the form in which it passed the llouse on February I last so that the time of regioning the main line is extended a year and the organization of the company to sixty days after the passage of the act.

Also the route is changed so as to run adjacent to the Sargent road to Banker lini road, to Tweith street, Brookland, to Dahlgren circle, to Delaware avenue exto incorporate the Washington, Burnt Mills

to Dahlgren circle, to Delaware avenue ex

to Dahlgren circle, to Delaware avenue ex-tended, or by other route east of the Baltimore and Onio Metropelitan branch, that may be approved by the Commissioners. Mr. McMillan introduced a bill-8, 3072, to prevent the spread of contagious dis-cases in the District. It is the measure-recommended by the Commissioners as suggested by Health Officer Woodward. Contagious discases are defined to include Asiatic choicra, yellow fever, typhoid fever, smallpox, including varioloid, leprosy, the plague, glanders, diphtheria and the plague, glanders, diphtheria and scarlet fever.

These bills were not referred to the district Committee.

Mr. Gallinger offered an amendment to the deficiency appropriation bill to pay Emmert. Dumbar & Co. \$14.548 for work in laying water mains twenty years ago. Mr. Davis introduced, by request, a bill, 8, 3073, to extend the limits of this city to include the following Beginning at Florida avenue and Erentwood road, along Breatwood road to Seventh street ex-tended north along Seventh to V street, west on V street to West Seventh to V street, south along West Seventh to Florida avenue and thence to Bientwood road.

Mr. Call presented a memorial from the District Federation of Labor, signed by President James F. McHugh and Secre-ary Arthur Keip, asking that in making future grants to corporations conditions It is asked that Mr. Call oppose all franchises for new laws for street rail-ways or extensions of present lines here, unless the bill for such franchises require

unless the full for such franchises require that in constructing and operating, the labor of American citizens only be em-ployed, and that the wages of materinea, drivers, and conductors be fixed at a sum not less than \$2 a day. The paper concludes with a recognition of Mr. Call's services to organized labor, and assures him that "organized labor recognizes in him a staunch champion of the right of labor to organize for their the right of labor to organize for their mutual protection, and that his untiring efforts to secure for workingmen fair wages have been particularly gratifying organized labor, whose cause is pleaded in Congress only by men who, like the bonorable Schater, have been limelled by a sense of justice and fair play to champion the cause of the unrepresented."

SMALLPOX BAVAGES CUBA.

The Dread Disease Is Raging Among the Spanish Recruits.

The United States Marine Hospital Servlce inspector at Santlago de Cuba, in his latest official report says: "Yellow fever is still raging among the new recruits, from Spain, and the government has at hast seen the wisdom of building separate barracks, where the sick from this fever are now confined."

The United States consul, Hyatt, at the same port, reports to the State Department: "Smallpox is epidemic in many parts of and between the sanitary discipline and moving troops, blds fair to continue until between the disease and vaccination the culture field is exhausted."

The significance of those reports at a time when Cuba is bealthier than at any other portion of the year, indicates what is to be expected when the hot season advances, and the full effects of the neglect incidental to the revolution commence to

One of the new and startling acrial acts with the Barnom & Bailey Show this year has been made possible by modern science It is one showing the flight of a young lady through the air. Shot from a hig Romar her sister, the latter hanging head downward from a trapeze 50 feet high. It is a novel, sensational, and thrilling act.

Internal Revenue Receipts. The receipts from internal revenue ves teriay were \$331,034; from castoms, \$629,-903; and miscellancous, \$69,286. The national bank notes received yesterday for redemption amounted to \$565,090.

THE workman other eats his lunch on the same bench where he does his work. The office man anatches a actuates from his occupation and turns his
desk into a diningtable. Neither gets
the exercise he
needs, neither takes
the proper time for

wonder that the digestion of both gets out Nature works as hard as she can, but there are some things she cannot stand. If a man gets some foreign substance into the works of his watch, he doesn't expect the watch to run until the impediment is rewatch to run until the impediment is re-moved. His own digestive system is a much more wonderful and delicate mechan-ism than that of his watch, and yet he neg-lects it and abuses it. He lets it get out of order, and refuses to help it. In the end his neglect reacts with terrible force upon himself. The reaction comes on gradually,

however, so that sometimes he scarcely sushowever, so that sometimes he scarcely suspects the cause.

The cause of nine-tenths of the sickness of the world is constipation—a condition so common that four people out of five take it as a matter of course. From this one cause come indigestion; disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. Dr. Pierce's Pleasant Pellets are tiny, sugara little thing, and a little thing will cure it.

Dr. Pierce's Pleasant Pellets are tiny, sugarcoated granules. They give to nature just
the little help she needs. They are as
gentle as they are efficient, and will perfectly cure the worst cases of constipation.
There is nothing in the world like them, so
there can be nothing "just as good." The

FRANC & SON, 7th and D. "On the Corner."

HIS POSITION EXPLAINED

Plan for Minor Police Courts as Advocated by Major Moore.

Intention Was to Submit a Bill Which the Attorney Might Afterward

From the several publications made with respect to the arguments for and against the bill for the appointment of police magistrates, and the difference of opinion among officials as to the practicability of the plan, Major Moore's position is declared to have been misinterpreted. This is especially true in connection with

the contents of Attorney Thomas final opinion, and the explanation is made that the police department did not intend for did it feel itself capable, in drafting the bill, to provide for a perfect system of trial by magistrates, but it did intend to submit to the Commissioners, such a made as to the Commissioners such a nucleus as might be perfected by the attorney, if the recommendation for the establishment of the system made by the superintendent in his last annual report, should meet with their approval.

It was evidently not expected that the attorney would criticise the department nor accept the statements made in favor of the bill as a challenge for debate of its provisions, but would, on the contrary, put the measure in legal shape, if possible and harmonize any differences that might

appear. The arguments of the police department In favor of the new system were, in brief, that it provides for speedy hearings; gives officers the opportunity to testify without losing the time necessary to attend at the central court, and that it would be as economical as the present system.

The detention of police officers at court during trials having been referred to by the police judges, and a statement made that a fraction under six is the average dully attendance at the court at 11 o'clock a. m., Major Moore says, in a letter to the Commissioners, that it is not a fair projection to average the detection of police officers for days they are not detained, while on other days the precincts are left entirely unprotected.

Other arguments advanced in the same letter have hitherto appeared in The Times, the main issue having been presented in the Major's annual report, and the details ing supplied in the after correspondence Building permits were issued yesterday as follows: G. W. Acorn, three frame dwellings in Rosedrie, \$2,700; B. B. Cormick, five dwellings, Nos. 1203 to 1211 I street northeast, \$7,000; Aloysius Eichhorn, for improvements to No. 87 K street northwest, \$2,000 kills of the corticles of the corticle
